SECRET/GROURITY INFORMATION	25X1
- 2 -	
production of TNT at the plant. TNT was shipped to the factory in metal drums. The TNT was in crystalline form and had to be melted before use.  After melting, it was poured into the mixer and used mostly for the production of dynamite.	25X1 25X1
Mlyn obtained the TNT. Toluol was not nitrated at Krupski Mlyn in 1949, to the best of my knowledge.
